Second Year, First Semester Examination-2021

English for Technology III (A)

Answer only 4 questions

Question no. one (01) is compulsory. **Time: 2 hours**

Question 01

Write an **essay** on one of the following topics in **250 words**:

- Modern technology should produce nutritious food not poisonous food
- Using organic fertilizer in Agriculture in Sri Lanka
- Pros and cons of online education
- Role of technology in committing and controlling crimes
- Importance of nature friendly constructions

📖 **Question 02**

1. Read the following passage and answer the questions that follow.

Redwoods are the tallest trees in the world. They grow to be as high as 380 feet. Compare that to an American football field, which is 300 feet

long. A redwood would impress you if you stood near one. But why do they grow so tall?

It's hard to see from the ground, but the redwoods are competing. They are fighting with each other to get the most sunlight. The trees that get the most sunlight grow taller. Trees that get stuck under other trees do not get as much light. They lose the opportunity to grow taller. So, redwoods must grow taller to compete or they will get trapped at the bottom.

Growing so tall is risky. The wind is more threatening to a tall tree. It is also hard to grow so much. Redwoods use all their energy to grow tall. The trees might be better off if they didn't have to grow so tall to survive. Their lives would be safer and easier. But there is no way for them to coordinate. They cannot agree to stop growing as tall as possible. So, they compete their whole lives.

People face similar challenges. For example, nations spend a lot of money to protect themselves from other nations. The US spends more than half its budget on defense. Most other nations spend 10-30% of theirs on arms and armies. That's a lot of money. We could spend that money on schools, roads, and parks. We could spend it on feeding hungry people or helping the environment. We could spend it on advancing art, philosophy, or science. So why don't we?

The problem is that if a nation has no military, then they face the risk of invasion. A nation with a mighty army may take their resources and destroy them on a whim. Like the redwoods, which grow taller to their own detriment, we are locked in a harmful race. Most people agree that world peace is better than an arms race. In a peaceful world, we could use all our resources to make our lives better. That sounds nice, but what if one nation broke the agreement? What if they built an army in secret? What if they used their secret army to destroy us? Can we afford to take

that risk? Most nations decide that they cannot. Rather, they choose to spend a lot of money on defense programs.

(I) Answer the following questions (2 marks x 5 = 10 Marks)

1. Why do redwoods compete against each other for sunlight?
2. Mention two advantages of the great height of redwoods.
3. State two disadvantages of the great height of redwoods.
4. According to the text, what is the risk a nation that doesn't spend on defense has to face?
5. Some countries in the world are like the redwoods at the bottom. What type of countries are they?

(II) Complete the following sentences according to the text with suitable word(s) (2 marks x 5 = 10 Marks):

1. Usually redwoods grow taller than the length of _____.
2. Redwoods compete with each other to avoid getting _____.
3. Since redwoods are the _____ they have no other competitors.
4. The United States spends _____ on defense activities.
5. In a peaceful world resourceful nations can contribute to humanitarian projects such as _____ and _____.

(III) Match the words /phrases below with those in the text in bold (1 mark x 5 = 5 Marks)

1. Receive admiration from others
2. Sudden decision
3. Work together
4. Destruction
5. Make improvements

Question 03

(I) Fill in the blanks in the following conditional sentences (1 mark x 10 = 10 Marks)

1. If they _____ train, they'll save time. (**take**)
2. You would have _____ remembered if you _____ a minute. (**think**)
3. Even if master _____, the dog will be faithful. (**die**)
4. If he _____ overseas, she would leave him. (**move**)
5. If he _____ he would have celebrated alone. (**succeed**)
6. Will she get it, if she _____? (**like**)
7. I _____ you something to drink if you had told me. (**bring**)
8. If you _____ him, he will come. (**ask**)
9. Would you have _____ stopped him, if he _____? (**try**)
10. I'll call you if I _____ anything. (**want**)

(II) Make your own grammatically correct and meaningful sentences for following modals (1.5 marks x 10 = 15 Marks)

1. could
2. shall
3. should
4. can
5. used to
6. May
7. will
8. must
9. ought to
10. Would

Question 04

I) State whether the following sentences are compound or complex
(1 mark x 10 = 10 Marks)

1. We will go outside, but we won't go very far.
2. She always washed her hands before she had her dinner.
3. Stay out of the kitchen until it is dinner time.
4. Do you need more flour, or do you need more eggs?
