Higher National Diploma in Technology (Agriculture) / Higher National Diploma in Building Services Engineering/ Higher National Diploma in Consumer Science and Product Technology/ Higher National Diploma in Engineering (Civil, Electrical, Mechanical)/ Higher National Diploma in Food Technology / Higher National Diploma in Information Technology / Higher National Diploma in Quantity Surveying.

First Year, First Semester Examination - 2018

EN1101, CC1101, CSPT1107, FT1106, IT1108

English for Technology I (B)

Question 01 [Total 25 Marks]

Write an **essay** on one of the following topics in **250 words**.

1. Importance of reading books as a higher national diploma student.
2. Present society is too dependent on technology; do you agree?.
3. Sri Lanka should focus more on agriculture.
4. Why we should think of eco-friendly constructions.
5. Fast food is a silent killer.

Question 02 [Total 25 Marks]

I) Fill in the blanks with the suitable form of the verbs given in the brackets. (1x15=15)

1. We _____ **(watch)** TV when it started to rain.
2. We _____ **(see)** a horrible accident yesterday.
3. I like him because he _____ **(work)** hard.
4. I was surprised when he passed the exam, because he hardly _____ **(study)**.
5. I _____ **(leave)** school last year.
6. I _____ **(wait)** for my girlfriend for two hours.
7. We _____ **(organize)** a blood donation campaign this year.
8. The government _____ **(hold)** the election soon.
9. Wait a minute, I _____ **(carry)** this box for you.
10. He _____ **(work)** in a firm since 2015.
11. At the moment, I _____ **(revise)** English grammar.
12. I _____ **(begin/already)** to read my textbooks again.
13. I _____ **(learn)** English for seven years now.
14. Paul _____ **(read)** a book when they knocked on the door.
15. Last year, I _____ **(work)** hard to improve my English knowledge.

II) Complete the following sentences using suitable articles where necessary. (1x10=10)

1. Where is i) _____ USB drive I lent you last week?
2. Do you still live in ii) _____ Bristol?
3. Carol's father works as iii) _____ electrician.
4. What do you usually have for iv) _____ breakfast?
5. Ben has v) _____ terrible headache.
6. Once vi) _____ student gets vii) _____ degree from viii) _____ university he or she is in ix) _____ better position to get x) _____ job.

Question 03 [Total 25 Marks]

I) Fill in the blanks with suitable prepositions where necessary. You may use one preposition more than once. (1x15=15) *(between, in, at, of, for, with, by, over, to, on, from)*

1. Hamlet was written i) _____ Shakespeare.
2. I put some clean towels ii) _____ the bathroom.
3. He died iii) _____ cancer after suffering iv) _____ it v) _____ two years.
4. This is the present he gave vi) _____ me.
5. He went vii) _____ the canteen and ordered viii) _____ a cup ix) _____ tea x) _____ milk.
6. When he was attending xi) _____ the university he had to face xii) _____ many difficulties.
7. Though both lend money xiii) _____ interest there is a difference xiv) _____ a Finance Company and a bank.
8. Usage is the key xv) _____ language learning.

II) Turn the following sentences into the passive voice. (1x10=10)

1. John collects money.
2. Father has cleaned the garden.
3. Anna opened the window.
4. I will ask a question.
5. They were feeding the hens.
6. They have completed the tasks.
7. Students discussed the matter.
8. He is cutting the picture.
9. We organize the event.
10. William will not repair the car.

Question 04 [Total 25 Marks]

I) You are the **Manager of Access Leasing Company** and your team has done a survey on usage of social media in your company. The data show that most of the staff members spend a lot of time on social networks during the office hours. As the Manager of the company you are going to limit their usage of social networks since their distractions have great impact on your company. Write a **memo** to all the staff members informing the findings, and the actions you are going to take. (15 marks)

II) You have organized an **inter ATI cricket tournament** at your ATI. Prepare an **invitation** to be sent to the students of other ATIs to participate for this event with their teams. (10 marks)

Question 05 [Total 25 Marks]

I) Read the passage and answer the questions given below.

Some people say that the best defense is a good offense; an octopus, however, would disagree. In addition to being one of the strangest and most beautiful creatures in nature, the octopus has some of the most inventive and effective defense mechanisms imaginable. While other animals have teeth, horns, or claws to help defend them from predators, the octopus concentrates its energy on hiding from and confusing its attackers. When it wants to get away, the octopus has an impressive arsenal of tricks at its disposal.

The most well-known of the octopus's defense mechanisms is its ability to squirt clouds of ink into the water. Some octopi use this cloud of ink as **camouflage**; after squirting the ink, the octopus retreats into the ink cloud where the predator cannot see it. Other octopi use the ink cloud as a **decoy**. If a large, intelligent predator such as a shark knows that octopi use ink clouds for camouflage, it might simply attack the ink cloud blindly, hoping to make contact with the octopus inside. However, some sneaky octopi will release the ink cloud in one direction and scurry away in another direction, leaving the predator with nothing but a mouthful of ink. In addition to confusing predators' sense of sight, these ink clouds also confuse their **sense of smell**. The ink is composed primarily of **melanin** (the same chemical that gives human skin its color), which can shut down a predator's sense of smell. If an octopus cannot be seen or smelled, it has a much higher chance of escaping an attack.

Another defense mechanism possessed by many octopi is the ability to **change color**, much like a chameleon. Most animals get their skin color from chemicals in the skin called **chromatophores** (melanin is one of these chromatophores). Chromatophores might contain yellow, orange, red, brown, or black pigments, and the amount of each pigment present in the skin determines an animal's color. While most animals are always the same color, some species of octopi can control the amount of each color pigment in their skin cells, allowing them to change color. Some **poisonous** octopi, when provoked, will change their skin to a bright, eye-catching color to warn predators that they are dangerous and ready to strike. Other octopi use this ability to change their skin to the color and texture of **seaweed or coral**, allowing them to blend in with their environment. Finally, some octopi—such as the **mimic octopus**—use this color changing ability to masquerade as another type of animal. The body of an octopus is highly **flexible**, and some species can combine this flexibility with their color-changing skills to make themselves resemble more dangerous animals such as **sea snakes or eels**.

Yet another defense mechanism possessed by some octopi is the ability to perform an **autotomy**, or self-amputation, of one of their limbs and regrow it later. Many species of skink and lizard also possess this ability, which allows them to shed their tails when caught by a predator and therefore get away. When a predator catches a tentacle the octopus can amputate this tentacle, thereby unfettering itself, and regrow the tentacle later. Some octopi, however, are even cleverer. When threatened by a predator, these octopi will shed a tentacle before being attacked in the hope that the predator will go after the detached tentacle rather than the octopus itself. While the octopus may not be the most vicious creature in the ocean, its numerous and clever defense mechanisms help it to survive in the dangerous undersea world.

Questions:

1. Why is the octopus called one of the strangest and beautiful creatures in the world? (2 marks)
2. How does the octopus attack its predators? (2 marks)
3. What is the most well-known defense mechanism that the octopus uses? (2 marks)
4. How does the mechanism help them to save themselves from enemies? (2 marks)
5. What do some octopi do after omitting the ink to get away from dangerous predators like sharks? (2 marks)
6. What is the ink that the octopus omits composed of? (1 mark)
7. How do most animals get their skin color? (1 mark)
8. How do the changing color and texture of seaweed and corals help these creatures? (2 marks)
9. What is the defense mechanism used by lizards and skinks? (2 marks)
10. What is the main idea that the writer wants to express in the above passage? (3 marks)

II) Write meaningful sentences using the words below. (2x3=6)

i) _____ **imaginable** ii) _____ **flexible** iii) _____ **poisonous**
