8. He had always hoped that his son would go to _____ University.
9. Everyone respects _____ honest person.
10. We shall come if we get _____ opportunity.

Question 05 [Total 25 marks]

Part 01 ($10 \times 2 = 20$ marks)

Read the following passage and answer the questions that follows.

In recent years, there has been increasing acknowledgement of the important role **mental health** plays in achieving global development goals, as illustrated by the inclusion of mental health in the United Nations Sustainable Development Goals (SDGs). Depression is one of the leading causes of mental disability. Suicide is the fourth leading cause of death among 15-29-year-olds. And people with severe mental health conditions die prematurely—as much as two decades early—due to preventable physical conditions. Despite progress in some countries, people with mental health conditions often face severe human rights violations, discrimination, and stigma.

The Sri Lankan context is also not that different. Sri Lanka has one fully functional mental hospital; however, the lack of psychiatrists, trained nurses and medical officers is a major challenge. The increasing number of people experiencing mental health conditions, coupled with the lack of treatment is a serious issue that Sri Lanka has to face. Most people are also unable to afford the treatment and therapy, which makes it an even bigger problem. The lack of awareness and education further contributes to the problem. It is also difficult to diagnose certain mental health conditions due to the lack of updated knowledge about the conditions among mental health professionals.

Increased investment in mental health is crucial. Investment should be increased not just in mental health facilities, but also for programs to train new mental health professionals, increase the availability of new medicines and technologies, to conduct research to identify new treatments and improve existing treatments for all mental disorders. In 2019, the World Health Organization (WHO) launched the **WHO Special Initiative for Mental Health (2019-2023): Universal Health Coverage for Mental Health** to ensure access to quality and affordable care for mental health conditions in 12 priority countries for 100 million more people. This year, the WHO launched the **World Mental Health Report: Transforming Mental Health for All.**

Questions:

1. What is the topic on which there has been an increasing acknowledgement?
2. What does SDG stand for?
3. Name one of the important causes of mental disability
4. Why does people with severe mental health condition die prematurely?
5. Mention two (2) unpleasant situations experienced by people with mental health conditions.
6. What country owns a fully functional mental hospital despite being a developing country
7. Who are lacking in Sri Lankan mental hospitals?
8. Why is it difficult to diagnose certain mental health conditions?
9. How increased investment can be made in relation to "treatment"
10. When did the WHO organize special Initiative for Mental Health?

Part 02 ($5 \times 1 = 5$ marks)

Write grammatical and meaningful sentences using the following words. *(Marks will not be given if the content is copied from the text)*

1. Treatment
2. Transform
3. Progress
4. Priority
5. Awareness
