Higher National Diploma in Engineering (Electrical)

Fourth Year, First Semester Examination – 2018

EE3213- Network Management

Instructions for Candidates:	No. of questions : 06
Answer five(05) questions only	No. of pages : 02
All questions carry equal marks	Time :Three(03) Hours

Q 01

i). List five functional areas of network management process. **(05 Marks)**

ii). Briefly describe two remote access methods. **(04 Marks)**

iii). What is the importance of a network operating system? List three functions of it. **(05 Marks)**

iv). Network management platforms can use various architectures. Briefly describe common architectures. **(06 Marks)**

Q 02

i). What is malicious software? List two effects of them. **(04 Marks)**

ii). List the life cycle phases of a virus. **(04 Marks)**

iii). Briefly describe the DD0s attack and its consequences in a networked system. **(04 Marks)**

iv). Briefly describe the following types. **(08 Marks)**

a. Trojan horse

b. Worm

c. Zombie

d. Trap door

Q 03

i). What is Network security management? **(04 Marks)**

ii). Briefly describe the following security techniques with suitable examples. **(06 Marks)**

a) Access Control

b) Anti-virus and antimalware

c) Firewall

iii). What is Vulnerability? List two of them. **(04 Marks)**

iv). Briefly describe how you could prevent the vulnerabilities with suitable examples. **(06 Marks)**

Q 04

i). What is network fault management? List its steps. **(04 Marks)**

ii). Define the following terms. **(06 Marks)**

a) ARP poisoning

b) VLAN hopping

c) DNS Spoofing

iii). Compare and contrast Active fault management and Passive fault management **(06 Marks)**

iv). What is SNMP trap? **(04 Marks)**

Q 05

i). What is configuration Management in a network? **(05 Marks)**

ii). List five benefits of configuration Management. **(05 Marks)**

iii). Briefly describe the configuration steps of the DHCP server. **(05 Marks)**

iv). List five benefits of DHCP server. **(05 Marks)**

Q 06

Write short notes for the followings.

a) Volume based attack **(05 Marks)**

b) Network management protocols **(05 Marks)**

c) Multi-tier Architecture **(05 Marks)**

d) Network Segmentation **(05 Marks)**
