Higher National Diploma in Accountancy
First Year, Second Semester Examination-2021
HNDA1252: Introduction to ICT and Computer networks

Instructions for Candidates:	No. of questions	: 06
Answer Part 1 and any four (04) questions from Part 2.	No. of pages	: 03
	Time	: Two hours

Part 1

I. The portable computers are known as
   a. Supercomputer
   b. Minicomputer
   c. Micro computer
   d. Laptop

II. Range of WiMax is
   a. 5Km
   b. 10Km
   c. 20Km
   d. 30Km

III. The device generate a hardcopy of a document is known as
   a. Camara
   b. Printer
   c. Scanner
   d. Monitor

IV. Feature of primary memory is
   a. Volatile
   b. Non Auxiliary
   c. Non volatile
   d. Auxiliary

V. Disadvantage of tape drive storage is
   a. Higher price
   b. Not portable
   c. Volatility
   d. Slow

VI. Characteristic of computer is
   a. Versatile
   b. Consumable
   c. Volatile
   d. Auxiliary

VII. An example for network topology
   a. WAN
   b. WiFi
   c. Bus
   d. BI

VIII. What is the appropriate automation tool for Generate sales monthly salary report
   a. MS Word
   b. MS Excel
   c. MS PowerPoint
   d. Adobe acrobat

IX. Input device is

a. Flash drive
b. CD Drive
c. Printer
d. Touch screen

X. Asymmetric key algorithm is known as

a. One key
b. Two key algorithm
c. Conventional encryption
d. All of above

Part 2

Question 01

I. What is Hardware device? (**0**2 marks)

II. Give three examples for hardware devices (**03** marks)

III. Give example for each of the following device categories. (03 Marks)

a. Input Devices
b. Networking Devices
c. Output Devices

IV. Briefly explain the function/purpose of each of the above component. (06 Marks)

V. Why RAM is so important? explain. (06 marks)

(20 Marks)

Question 02

I. What is data information? (02 marks)

II. Mention three features of information (03 marks)

III. List three DBMS Software (03 marks)

IV. How DBMS can be applied in a manufacturing firm, explain (06 marks)

V. Explain the use information in decision making (06 marks)

(20 Marks)

Question 03

I. What is encryption? (02 marks)

II. What are the two types of encryption? (03 marks)

III. What is the advantage of using encryption in data communication? (03 marks)

IV. Compare the deference between two types of encryption (06 marks)

V. Draw the block diagram of encryption and decryption process (06 marks)

(20 Marks)

Question 04

An organization requires to develop an information system with following data tables.

- Purchases: Item ID, date of purchase, and Item Category.
- Items: Item name.
- Sales: Item ID, selling price, and selling date.

I.	What is a table?	(02 marks)
II.	Introduce appropriate primary keys for the given three relations	(03 marks)
III.	What is SQL	(03 marks)
IV.	Write SQL queries to perform the following a. Create 'Sales' table. b. Insert a record to 'Purchases' table	(06 marks)
V.	Mention the use of following SQL commands a. Alter table b. Drop column c. Update	(06 marks)

(20 Marks)

Question 05

I.	What is firewall?	(02 marks)
II.	Mention the two types of firewalls	(03 marks)
III.	What is the deference of above mentioned two types of firewalls	(03 marks)
IV.	What is VPN	(03 marks)
V.	Explain the use of VPN in business environment.	(06 marks)

(20 Marks)
